Please help us help working snipers in combat zones around the world. Snipersonline UA and AmericanSnipers have several members and Sniper friends actively engaged in the battle against terrorism. Our friends are only the tip of the iceberg when it comes to the number of snipers deployed around the world right now. These snipers are deployed in the theaters of combat, both in Afghanistan and Iraq as well as other locations overseas. Many of these are full time law enforcement officers that have been activated for regular duty action.

Our members have chosen to support our fellow snipers, and brothers in arms, by helping supply them with items that they need to get the job done better as well as things to make their lives easier while on deployment. This has been everything from rifle scopes and accessories, spotting scopes, mini binoculars, laser range finders and ballistic plate carriers to basic hygiene type items such as handi-wipes, foot powder and antiseptic jell.

**Who are we?**

We are active, local, state and federal police snipers as well as snipers from the various military branches. We are a tight-knit group that believes strongly in supporting our brothers that are deployed to the front lines. In return for that support, they then pass on their gained knowledge upon their return. We work hard in our missions. We train hard so that when the time comes, we can accomplish our missions to the fullest extent of our abilities. We are snipers that need support in the form of advanced gear as well as "creature comfort" items to help us pass the time while we are away from our jobs and our families. We are the ones putting our lives on the line to help keep this great country safe and free from terrorism. We are your sons, your brothers, your husbands, your fathers, as well as your friends.

**We invite you to directly support the effort with your tax-deductible donation.**
